WILLGO & WILLSTEP

The human side of cleaning

TSM

WILLGO & WILLSTEP

Your mobile Workshop tools.

The areas where your intervention is required are usually not easy to access. Often they require you to move various tools, sometimes even heavy objects.

WILLGO is your mobile cleaning workshop that allows you to easily move the cleaning tools around, together with the vertical scrubber dryer Willmop, reducing transport times.

WILLSTEP is a practical stair-climbing trolley that assists with the easy movement of Willmop from one floor to the other, avoiding the effort of lifting it.

APPLICATIONS

HEALTHCARE

HOTEL

GOVERNMENT

INDUSTRIAL

HOW IT WORKS

Ergonomic handles

They ensure a secure grip and maximum comfort.

Extra Willpower on board

Dedicated extra battery slot - to ensure infinite work cycles (24/7).

Extra accessories

Mop storing support.

Multi-surface wheels

They allow you to easily transport Willmop on any surface.

MATERIAL
steel

Danger sign

To alert the public about the slippery floor.

Plenty of extra space

Inside the buckets, you can store the cleaning accessories (detergents, sprays, micro-fibre cloths etc).

Everything is under control.

General order and tidiness saves time and delivers a highly professional image. The accessories and consumables (sprayers, detergents, cloths and wipes) are stored in an efficient and orderly manner. WILLGO also allows you to have your own vertical scrubber dryer Willmop always with you and ready for use.

Enhance your experience.

You will be able to work longer without worrying about interrupting your cleaning tasks to charge your vertical scrubber dryer Willmop.

WILLGO features a dedicated extra battery slot that will allow you to always have a charged battery available to hand, enabling virtually non-stop operations.

WILLSTEP

Effortlessly!

The cleaning operations of crowded environments such as commercial areas, public and private facilities, and hotels can often be challenging due to the presence of different levels and flights of stairs. They make the job tiring, slow and can undermine your safety.

There is no need to go up and down endless stairways to carry your vertical scrubber dryer.

With WILLSTEP, you can bring Willmop to any workplace, without the stairs being a problem. The two wheels rest on the base of the steps, making the ascent and descent of the stairs agile and effortless.

How does it work?

Once Willstep is hooked on the frame of the Willmop, it can be easily transported by pulling the handlebar towards you and tilting the whole machine, which will be resting on the Willstep footrest.

TECHNICAL DATA

WILLSTEP

		35	50
Chassis material	-	Steel	Steel
Wheels type	-	Industrial	Industrial
Wheels size Ø	mm	250	250
Dimensions (L x l x h)	mm	485x250x315	545x250x315
Weight	kg	4,5	5,5
